CYBERFIRST DEFENDERS VIRTUAL SUMMER COURSE

Course availability: all places are full, accepting reserve applications

This fully funded online course is aimed at attracting a diverse range of students, typically between 14 and 15-years-old, with a real passion and interest in technology. *It is open to students currently in Year 10 (England and Wales), S4 (Scotland) and Year 11 (Northern Ireland) in the 2021/22 academic year.* Places are limited so sign up now and secure your spot.

CyberFirst Defenders gives you a valuable introduction to the process of building and protecting small networks and personal devices. It helps increase your awareness of cyber security, whilst also equipping you with a set of relevant practical skills you can apply in your own life. These skills will help you and your friends and family stay safe online. Then, we go a step further to help you visualise yourself in a cyber security career, guiding you to the technology-related qualifications you'll need.

This event includes the following:

- Identifying the sources and impacts of common cyber security threats
- Defining and applying first-line cyber defences
- Constructing, configuring and securing a home network
- Taking steps to manage personal digital footprints
