CYBERFIRST FUTURES BRISTOL (NON-RESIDENTIAL)

This fully funded, five-day non-residential course is aimed at attracting a diverse range of students, typically between 15 and 16-years-old, introducing them to more advanced practical features of cyber security. *It is open to students currently in Year 11 (England and Wales), S5 (Scotland) and Year 12 (Northern Ireland) in the 2021/22 academic year.* Places are limited so sign up now to secure your spot.

On a CyberFirst Futures course, you'll explore advanced cyber security threats to devices, apps and software, then discover ways to protect against them. The course offers an insight into not just the method but the motivation behind cyber threats. You'll explore legislation, study typical behaviours of likely cyber attackers, and apply this new understanding of how to protect networks. You'll even learn to secure personal devices too – and how to protect networks and devices for future employers. These skills will help you and your friends and family stay safe online.

This event includes the following:

- Exploring the motivations for cyber attacks
- How to protect yourself from cyber threats
- Developing knowledge and understanding of networks
- How to protect a network from attack
- How to securely share resources with others

WHEN

15 Aug - 19 Aug 2022
Start time: 10:00 hrs
Finish time: 17:00 hrs

WHERE

Bristol The exact location of the course will be provided in the joining instructions.
