CYBERFIRST ADVENTURERS VIRTUAL COURSE

A free online course for students who wish to continue their CyberFirst journey. This online course is open to any student starting Year 9, S3 in Scotland, or Year 10 in Northern Ireland in the 2020/21 academic year. Places are limited so don't delay and sign up fast. Please note: To apply for one of these courses, you will need to be on half-term for the full duration of the course and be able to attend on both half-days.

This event includes the following:

- The Data Games – Understand and use big data to create the perfect team using a set of sports results, compare with others and learn the interpretation of data.
- 3D Modelling – 3D printers have started to revolutionise the engineering industry, have a look at how technology and engineering fit together and move into the future in partnership. Have the chance to create your own model using 3D design software.
- Crack the Code – Against the clock you'll work in teams to unlock various devices, and get a taste of cryptography, language analysis and understand some cyber security terms. But don't be distracted, the timer won't stop until you Crack the Code.
