

EXPLORE ENGINEERING 2024 (RESIDENTIAL)

Course Availability: Places are only available now to students who meet our widening participation criteria.

Are you a creative problem solver who is ready for the many challenges facing the modern world? Are you up to the challenge of planning and building the necessary infrastructure we need to engineer solutions to help the world reach net zero? If so, then read on...

Leading academics from the University of Bath will deliver a series of short, but informative lectures and lead a series of interactive activities, bringing Mechanical, Electrical, Chemical, and Civil engineering to life. Meet other students who share your interest in STEM for an inspiring three days, that will change your world.

Come and experience life at a leading University and explore the different engineering options you could study or consider as a career. This course is for Year 10 in England and Wales, S4 in Scotland and Year 11 in Northern Ireland.

'I think the course has given me a good insight into different aspects of engineering and now I know that I definitely want to pursue studying mechanical engineering.'

Female Explore Engineering 2023 Course Student

This event includes the following:

- Explore your engineering career options
- Hear from leading academics from across different engineering disciplines
- Take part in practical projects working as part of a team
- Improve your CV with experiences that will help your UCAS application stand out
- See science put into practice with a series of engineering challenges
